2010 Cessna 208 Caravan Short-body

N75GM (sn 20800518)

The Cessna Caravan has set legendary standards as a workhorse aircraft, yet this phenomenal performer is far from content to rest on its hard-earned laurels. In today's Caravan, there are even more tools to help you get the job done. A next-generation glass cockpit and a new anti-ice system empower you to venture with even more confidence. So climb aboard and Fire up the ultra-dependable, 675-horsepower Pratt & Whitney turbine engine on this aircraft that is available immediately.
